**PLEASE NOTE:**  
Toe Imprint and most imprints that cover entire insole will require extra screens and therefore we will charge extra fees.

## Optional Logo Sole

The logo on the outsole is a mirror image so the impression in the sand will read correctly.

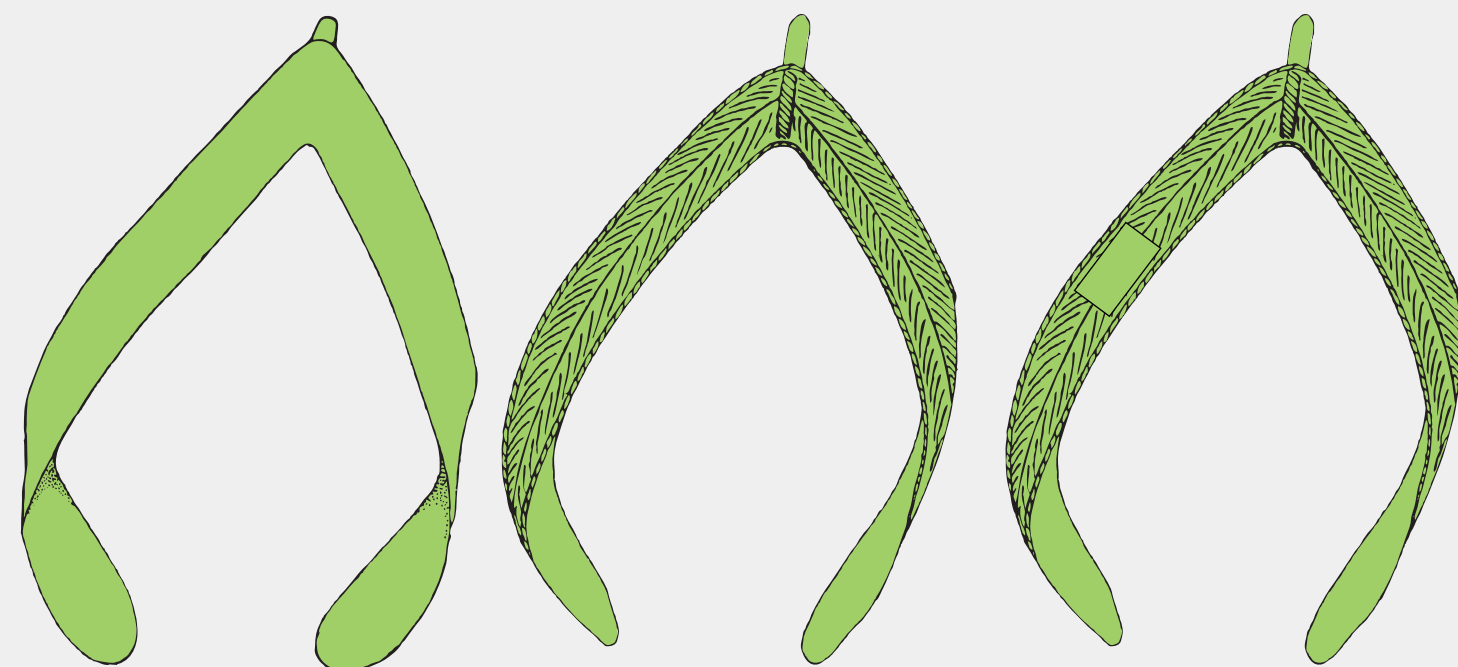

Many logos require modification, depending on various details, as this process has some limitations.

- Some details may be too small to cut out and may have to be eliminated.
- Letters with enclosed spaces will require opening. (i.e. "O", "P", "A", etc)

We attempt to minimize the changes to all logos but, understandably, have to meet the minimum requirements.

**Art Tip:** For best logo sole results, use silhouetted shaped art, san serif and blocked fonts on the sandal.
